Kolegji AAB

BSc Software Engineering
Oct 2022 – Expected Jun 2026

Kolegji AAB

Full-Stack Web Dev (Angular)
May 2023 – Jun 2023

KO-in-EU Project (Erasmus+)

Assistant Tech, EU Integration
Hackathon
May 2026

Leotrim Haliti

I build practical web and mobile products for real clients — from automated data pipelines to real-time tracking apps used by real institutions.

WORK EXPERIENCE

Founder & Full-Stack Developer

Equalcode · Jan 2024 – Present

- Run a digital studio delivering production web/mobile products for local businesses, end to end (scope, build, ship, maintain).
- Client engagements (e.g. Dreshaj Elite Cars below) are delivered through Equalcode.

Freelance Full-Stack Developer — Dreshaj Elite Cars

via Equalcode · Apr 2026 – May 2026

- Built a car-listing platform with an automated scraper that syncs vehicles, photos and prices from Encar.com, replacing manual listing updates.
- Next.js, Supabase, TypeScript.

Software Developer

QKUK (Main University Clinical Center of Kosovo) · Jun 2025 – Jan 2026

- Built screens and workflows for a Patient Management System used in a live healthcare environment handling private patient data.
- React (Vite), Node.js.

Information Technology Technician

Prishtina International Airport — Adem Jashari · Jul 2026 – Aug 2026

- Supported airport IT systems and end users; resolved hardware, software and network issues to keep daily operations running.

SELECTED PROJECTS

Dreshaj Elite Cars — dreshajelitecars.com

Live car-listing platform for Korean imports; inventory syncs automatically instead of being updated by hand.

Next.js · Supabase · TypeScript · Automation

MonitorimiDuhanit — monitorimiduhanit.org

Monitoring platform that gathers online content and uses AI to flag tobacco/vape promotion trends across Kosovo.

Next.js · Supabase · AI Detection · Dashboard

AAB Bus — github.com/leotrimhaliti/AAB-Bus

Cross-platform app showing live university bus locations, routes and schedules, built with AAB University.

React Native · Expo · Maps · Offline Support

Kujom — kujom.live

Kosovo-only geography guessing game: 10,000 real locations, solo play, live rooms and scoreboards.

JavaScript · Google Maps · Supabase

FACEITData — faceitdata.com

Cross-platform app for CS2 players to check FACEIT stats and recent match history on web or mobile.

React · React Native · Expo · TypeScript
